#### **Skills & Project Responsibilities.**

- Strong AutoCAD and Civil3D knowledge.
- Preparing survey drawings and descriptions as directed.
- Attending the meeting with project management and engineer's discuss the site work progress and site problems.
- Monitoring coordinates and control all daily relate to survey works.
- Initial site enabling works, including site offices and preliminaries.
- Lay-out and as-built all structure facilities based on designed plan such as: LPG gas pipeline, portable water pipeline, drainage pipeline and other underground facilities.
- Lay-out and setting out of vertical and horizontal alignment of concrete bridge.
- Applying for Demarcation for construction in municipality and cooperate with municipality surveyor in sites.
- Make the control points at site and monitor and control CP periodically.
- Take all setting out Coordinates from auto cad and importing and exporting to survey machine.
- Coordinates with landscaping, Infrastructural and M.E.P site coordinators.
- Coordinates with Design department and making drawing for all survey work.
- Stack out of Road locations, Road crossing pipelines, Duct banks, light poles and Curb stones with GPS and Total Station.
- Calculating the Road levels solving with Automatic level.
- Setting out of Gantries/Sign board, traffic Control panel Foundations in Highway
- Landscaping, irrigation works and street lighting for the future utility's requirement.
- Underground irrigation tank for landscaping plants.
- Service works, Etisalat works, Electrical works.

### **Skills & Project Responsibilities.**

- Download, edit and process of data using LEICA software for as built drawing.
- Processing and plotting of data using AUTOCAD Establishment of horizontal and vertical control points for fixed reference using total station and automatic level.
- L Profile and cross sectioning of areas covered by site construction area to determine portion to be cut for excavation of 3
- Lay-out and setting out of vertical and horizontal alignment of concrete column, footing, slabs doors, elevators, windows, stairs, other concrete structure, mechanical layout and electrical layout
- As-built all structure facilities based on design plan such as: footing column, other
- Setting-out of Piles, Guide wall centerline & Shutters
- Checking alignment & level of Piles casing after punches before drilling up to desired depth
- Checking Alignment & levels of capping beam made before concrete casting.
- Blinking levels, Screed levels, water stop levels & alignment, Construction & Expansion joint alignment
- Alignment & level of structural members such as Columns, beams & panels Hollow Core Slabs all lay-out must according to approved design plan
- Ability to read, interpret and follow method statements and procedures, specifications, drawings take out of Road locations, Road crossing pipelines, Duct banks, light poles and Curb stones with GPS and Total Station.
- Calculating the Road levels solving with Automatic level. and All other discipline related
- Familiar with all Company safety and QA/QC procedures, regulations and strictly enforces them with The workforce under my responsibility
- RAFT Foundation levels, wall alignment & levels underground irrigation tank for landscaping plants.
- MEP Alignment & Levels

### **Handled Survey Instruments:**

G.P.S. : SOKKIA (Model GRX1), Trimble R8.  
Total Station : Leica TS-15, Leica TS 16 \$TS-06.TS  
SOKKIA (250 Rx) SOKKIA SET 2X SOKKIA 610.TOPCON  
Theodolite. : WILD T-2, T-1, FUJI, SOKKIA & TOPCON  
Level Instrument. : NICON-A7, TOPCON-AD6, AD7, WILD NAK-2 & SOKKIA B20 AND LEICA

### **Computer Knowledge**

- AutoCAD
- MS Office (Excel, word)
- Eagle Point (roadwork)
- Auto Cad Civil 3D(Road)
- Capable of downloading data from the Total Station to the PC.

### **PERSONAL**

Father's Name : ROSHAN LAL  
Nationality : INDIAN
