PROJECT ENGINEER responsible for assembly **erection** and **commissioning** of the new cement line in ZLITEN Libya with company C.E.M.A.G [German company]

Mechanical CHIEF with PARTNER TEKNIK- Turkish company

In this project I have make the planning and supervision of the following operations:

- 1. Assembly and erection of necessary equipment and accessory (water equipment, gaz equipment, hydraulic equipment, water pipeline, gaz pipeline, motors.pump station...)
- 2. Complete machinery Installation and commissioning

Technical Skills

Competency at Electric

Electrotechnics

Curriculum Vitae

- Electric Cabling
- Programmable automates and Industrial data processing
- Electric Motors...

Competency at mechanics

- Hydraulic, pneumatic & turbomachine (pump, turbine, jack...)
- Transmission power
- Central heating & air-conditioning
- Administration of mechanic maintenance
- Administration of production & stocks
- Mechanical conception
- Thermal motor
- Making, traditional tool machines, specialized machines, numerical command machines...

PROFESSIONAL TRAINING

• **2007:** End of Study Project: study and conception of an automatic machine to count capsules at Laboratories Galpharma society.

It consists in studying and conceiving an automatic compteuse of capsules.

The system is conceived according to requirements of the load notebook which pose a vibratory fashion of function. It is dimensioned by the method of elements finished with the help of software of simulation in order to assure a good working. For the automatic part one conceived an electronic card that assures the numbering of capsules following different fashions of work

- March 2006: Training course at Granuphos- Sfax (Material & Maintenance administration) Stage project: Revision of electric motors (bobbing section) and supervision of parameters of operation of a phosphate crusher. (electric & mechanic project)
- August 2005: Training course at Thon Ben Khalia society of Zarzis (Material & Maintenance administration)

Training project: calculation of losses charges of the vapor installation of water of the factory.

Personal Skills

- Flexibility,
- Problem solving abilities
- Good communication
- Creativity.

Communication Skills

Arabic : read, spoken & writtenFrench : read, spoken & written

■ English: read, spoken & written

IT Proficiency

Ms. Word, Ms. Excel, Ms. Powerpoint...
